M+M INTERIOR DESIGN
CHICAGO, LA JOLLA

The vaulted reading room walls are covered in Iksel's Deco Fern, which was inspired by René Lalique 1920s chiseled glassware. Coastal Fog by Benjamin Moore blankets the space, creating a soothing backdrop for the room's textile color palette of French blue, cranberries, and pinks and a mix of florals, ikats, stripes, and block prints in saturated jeweled hues. An 18th-century walnut trestle table is topped with curiosities and books. Bone chest, library table, pair of marble columns, octagonal bone table, Wolf Hall Antique Collective. Grasscloth side tables, upholstered bench, console table, Serena & Lily. Layered rug, Arsin Rug Gallery. Window fabrics and hardware, The Shade Store. Fireplace mantel, Strike by Chad Dorsey.
